We apologise that there are few values in Table 2 of paper by Fornara *et al.*, 2011, doi: 10.1111/j.1365-2486.2010.02328.x, published in *Global Change Biology*, 17, 1925–1934, need to be changed and below an updated

version of the table. The main results of our paper are not affected by these changes and the main message of our paper remains the same.
